

MICROKLEAN[®]

MKWCS3/2 WEB CLEANERS

The Single Sided Tacky Roller Cleaning Machine provides an unequalled system for continuous contact cleaning.

Specially formulated polymer rollers lift and transfer contaminants from your product surface to adhesive rolls.

No special chemicals, wipes, or handling needed.

MID-RANGE WEB WIDTHS

VERSATILE MOUNTING

IDEAL APPLICATIONS

- Cleaning flexible material in reel-to-reel applications
- In-line processes in converting, coating, printing, etc.
- Films, label printing, holographics, flexographics, packaging, etc.
- For Web Widths 24 - 44 inches

At the most critical stages in your process (e.g. just prior to printing, etc.), the MKWCS will both clean and neutralize the charge on your substrates.
